Odyssey of the Mind

**CENTRAL REGIONAL TOURNAMENT MARCH

SAN TAN CHARTER HIGH SCHOOL

A Brief History from the Odyssey of the Mind

(from www.odysseyofthemind.com)

The Odyssey of the Mind has its roots in the Industrial Design classes of Dr. Sam Micklus, Odyssey of the Mind founder. As a professor at Rowan University in New Jersey (formerly Glassboro State College) Dr. Micklus challenged his students to create vehicles without wheels, mechanical pie throwers and flotation devices that would take them across a course on a lake. He evaluated them not on the success of their solutions, but on the ingenuity applied and the risk involved in trying something new and different. Students had fun. Word spread and the students' activities attracted attention from the local media. Soon, people on the outside wanted a part of the action. This public interest led to the development of a creative problem-solving competition for school children. The Odyssey of the Mind was on its way. Since then, Dr. Micklus's life has been happily consumed with developing problems for other people to solve. His rewards are in the joy and pride of the millions of participants who rise to the challenge of solving those problems.

March 2, 2019
San Tan Charter High School
Welcome to our Tournament!**

Welcome team members, coaches, parents, and guests to the 2019 Central Regional Tournament of Arizona Odyssey of the Mind. We are excited to have you here today.

A tournament of this size would not be possible without the dedicated commitment of the coaches, school administrators, teachers and other volunteers. My deepest thanks and appreciation go out to you.

And, of course, none of this would be possible without the team members themselves. I hope your odyssey has been a fun, challenging and learning experience. The skills you learn and develop through Odyssey of the Mind are skills you will use throughout your life.

Today's tournament is the culmination of months of hard work. No matter how you place in today's competition, you are all winners. You have joined an elite group of creative thinkers. Some of you will qualify to go on to the state competition on **April 6, 2019 at Canyon Del Oro High School in Tucson**. Between now and then, spend your time working on improving your performance, style and spontaneous. Look carefully at your scores and see how you can improve them. Continue to read your problem closely and check for general clarifications. Teams who place first or second at State Tournament will qualify to go to World Finals at Michigan State University.

Good Luck and Have Fun! ☺

Words of Thanks

We would like to give a special thank you to San Tan Charter High School who allowed the Central Region of Arizona Odyssey of the Mind to use their sites for today's competition.

Volunteers

Arizona Odyssey of the Mind is a volunteer organization that is funded solely by the team memberships and tournament registrations. In order to put on the tournament, we require the dedicated commitment of well over 200 volunteers who give their time to make this event happen. Thank you to all the volunteers, judges and coaches!

Team Created “What type of Sport Competitor are You?”

The information for the Team Created Sport Competitor Contest can be found in each team's registration packet coaches picked up from registration desk before the team's competition time. Participation in this contest is optional. This is not an official Odyssey of the Mind problem. Winning teams are awarded a prize.

Spontaneous Competition

Spontaneous Competition will be held in Building 1. All teams should check in no later than 15 minutes before assigned competition time. *Teams may always check in early.* If Spontaneous is running ahead of schedule, teams may be able to go in early.

Problem 1: OMER to the Rescuer, Again Small Gym – Building 3

Divisions I, II, III

Who better to help those in distress than OMER? In this problem, OMER and his trusty Sidekick travel to different places with suitcases holding all of the parts of an OMER-mobile vehicle! OMER and his Sidekick will assemble and ride on the vehicle where it will function in different ways to “save the day.” Between attempts, the vehicle will be disassembled, put back into the suitcases, and taken to a different area where it will be reassembled and driven again. Finally, the OMER-mobile is thrown a hero’s parade as a show of appreciation!

**Problem 2: Hide in Plain Sight
Room 503 – Building 1**

Divisions I, II, & III, IV

Teams take a cue from nature in this problem where they create and build a team-made mechanical creature that hides in plain sight. The creature will change its appearance three times to avoid being detected by a Searcher Character trying to find it. The way the creature changes will be different each time! The team will create and present a performance where its creature gets into – or out of – various situations using this resourceful skill. In the end the creature will surprise everyone by changing its appearance a final time and reveal its true self.

Problem 3: Classics... Leonardo's Workshop
– Div I/III
Room 602 – Building 2

Divisions I, II, III & IV

Imagine how inspiring Leonardo DaVinci's (LDV) workshop must have been. Teams will portray his workplace in an original, creative performance that includes LDV, a patron, and a naysayer. The team will recreate a DaVinci painting, make a three-dimensional representation of one of his works, and recreate another LDV work in any form the team wishes. There will also be an original "debunked" creation that LDV "invented" but discarded because it was mocked. Ironically, the item will be shown as something commonly used in modern times.

Problem 4: Structure Toss
Weight Room – Building 3
Weigh-in Room- Locker Room – Building 3

Divisions I, II, III & IV

Step right up and put your structure to the test! Teams must strategize risk for points and “toss” their structures in this year’s problem-turned-carnival. They will use a device to propel the structure in a carnival game. If it travels in the air it gets higher score! Once the structure has been successfully tossed, it can be tested for strength. A carnival barker character will entice other characters to join the fun during a performance that incorporates testing the structure’s strength with creative games of skill and chance.

Problem 5: Opposites Distract-Division I/III Room 605 – Building 2

Divisions I, II, III & IV

Disagreements can distract groups from seeing the bigger picture. Teams will create and present a humorous performance about a sneaky character that distracts others while trying to take control of anything the team wishes. In the performance it will lure others into silly arguments and be successful two times. The arguments will be presented using different dramatic styles and will include attention-getting effects. In the end, the groups will learn that they have been intentionally distracted and will catch the sneaky character before it takes control.

During the performance, the team will reveal three creative displays that explain the theme of the museum and show off team-made items. A tour guide will take audiences on a journey through the museum to meet a humorous artist and a curator.
